EXPERIENCE

E-Commerce Product Catalog - CodSoft |

July 2024 – August 2024

- Built a responsive product catalog using React with modular components for product listings, product details, and a shopping cart; implemented state management to handle cart actions and total price calculations.
- Enabled dynamic interaction through real-time cart updates, add/remove functionality, and user-friendly UI, demonstrating core e-commerce logic, React state handling, and component-based architecture.

PROJECTS

Dsa Tracker 🚀 | [React](#), [Tailwind CSS](#) , [JavaScript](#)

- Built a responsive and user-friendly frontend for a DSA tracking web app using React, JavaScript, and Tailwind CSS, featuring dynamic components and reusable UI elements for scalable, maintainable code.
- Optimized performance using React Hooks, memoization, and efficient state management; ensured cross-browser compatibility and mobile-first design for seamless user experience across devices.

EduStore 🚀 | [React Js](#) , [Tailwind CSS](#), [JavaScript](#)

- Developed a responsive and modular frontend using React, Vite, Tailwind CSS, and React Router to centralize semester papers, interview questions, and DSA problems; implemented local storage for user-specific progress tracking.
- Improved student preparation workflow by organizing academic and placement content in one platform; deployed on Vercel for public access, demonstrating strong UI/UX and production-ready frontend skills.

Portfolio 🚀 | [React](#) , [tailwind CSS](#) , [React-icons](#)

- Designed and developed a responsive portfolio website using React.js and Tailwind CSS, showcasing projects and skills effectively.
